WHO WE ARE

At EllenDavis Interior Design, great interior design is our business and our passion. We believe that a house becomes a home when it's personalized – your space should show off your tastes and personality, work with your lifestyle, and maybe make your guests a little jealous. We know that creating a home or office interior that does all of these things isn't easy, and we're here to help.

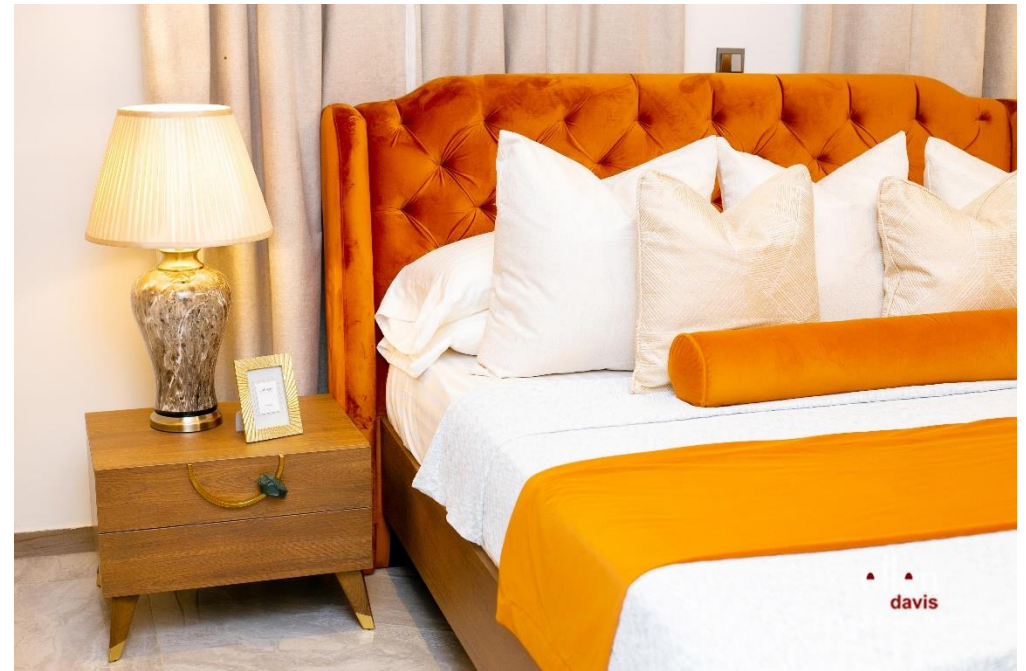

WHAT WE DO

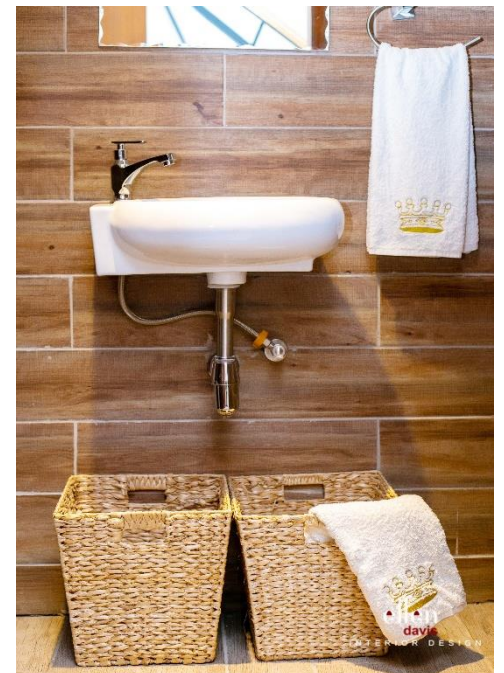

- Design Conceptualization & Implementation
- Space Planning
- Sourcing (Furniture, Fabrics, Lighting, Accessories and more)
- Styling / Accessorizing
- Wall Covering (Paint, Graffiti, Stonework, Marblelite, Wallpaper and more)
- Window Treatment and Installation (blinds, curtains etc.)
- Ceiling Works (Plasterboard/ P.O.P, T&G etc.)
- Joinery
- Art Selection and Installation
- Procurement and Delivery
- Lighting Plans
- Flooring (Tiling, Carpet, Paquet etc.)
- Outdoor Living / Landscaping (Outdoor Kitchen, Pergola etc.)

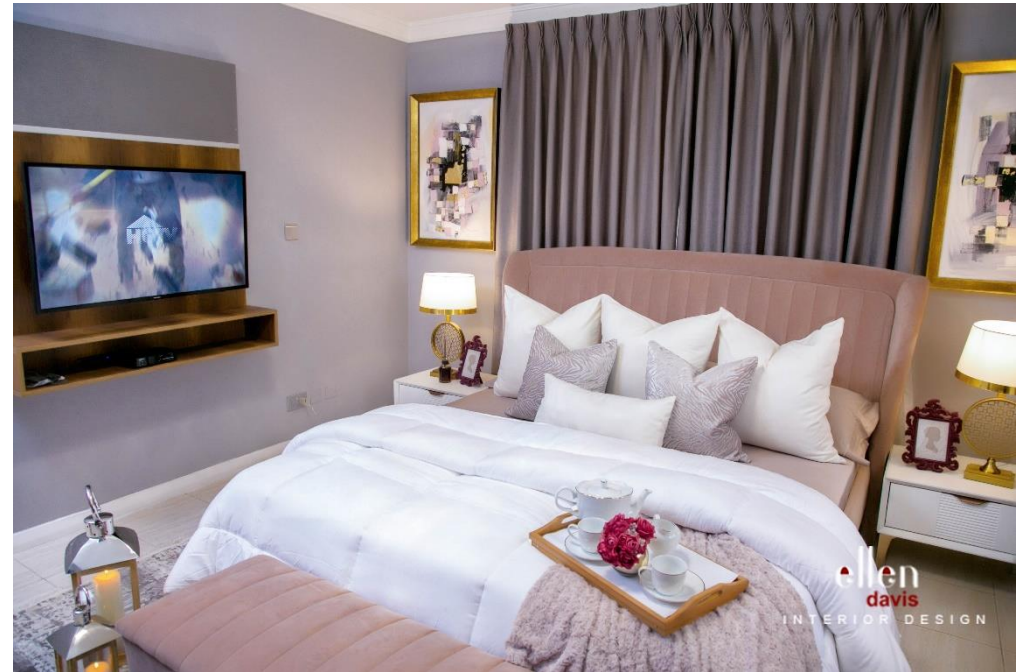

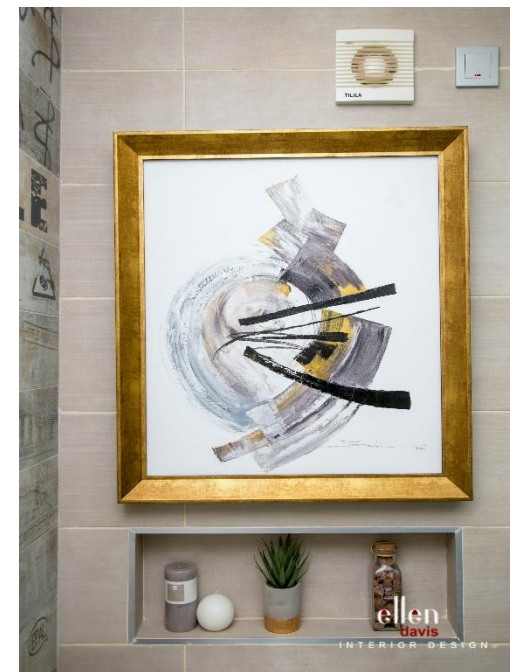

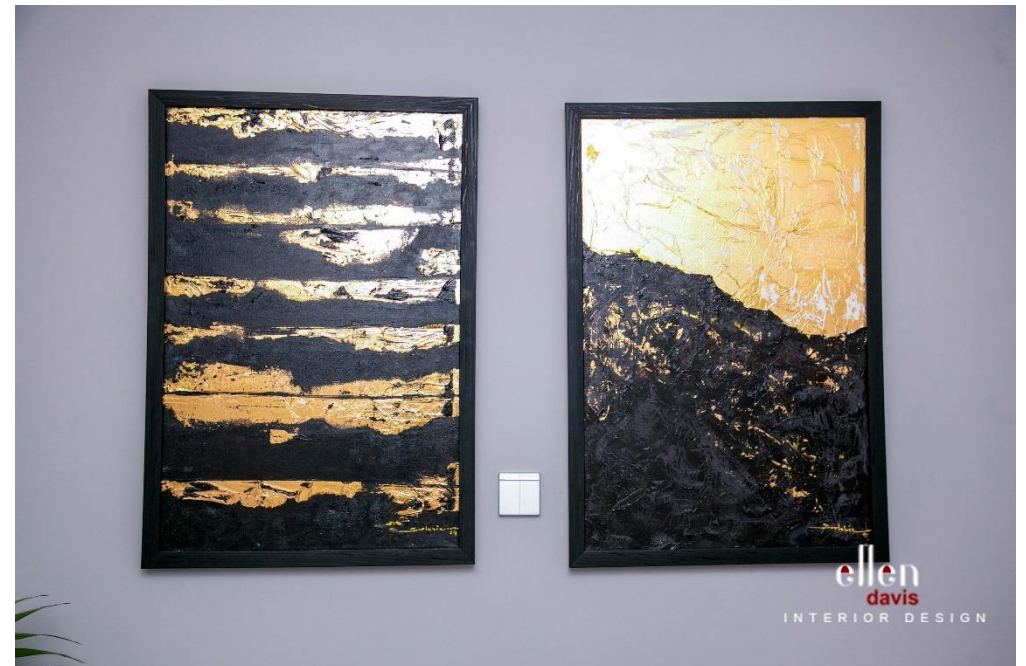

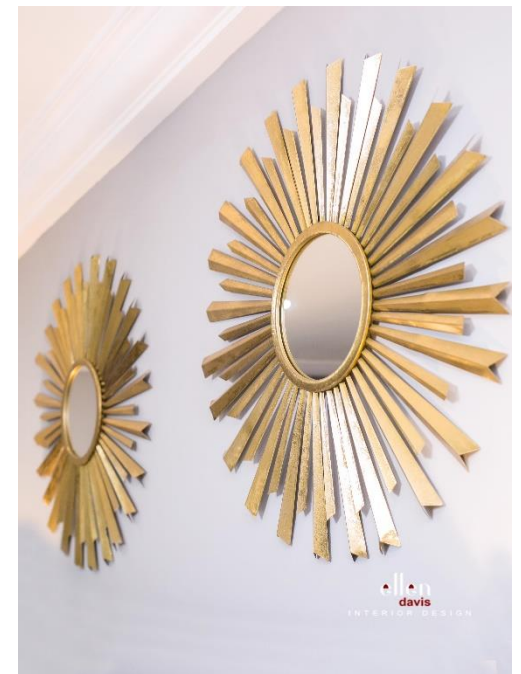

...it's all in the details

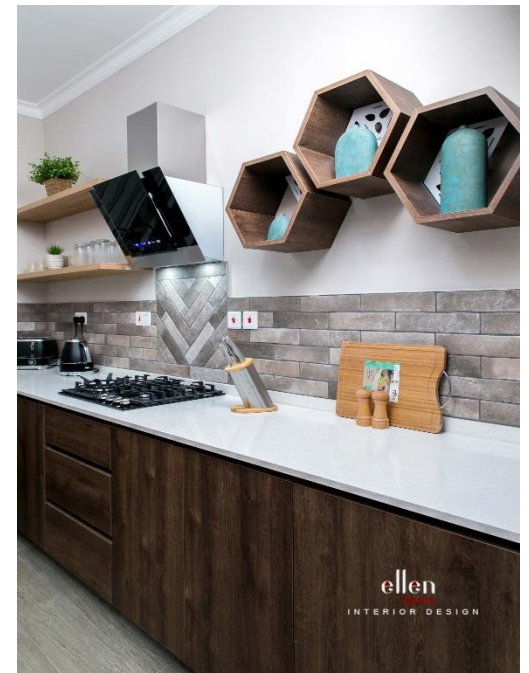

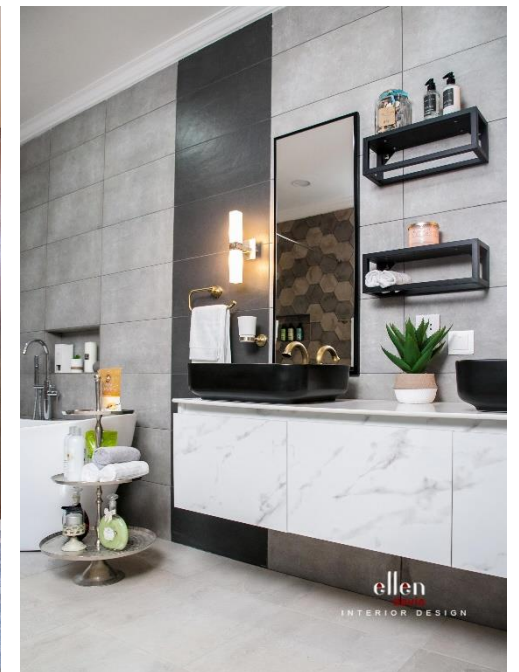

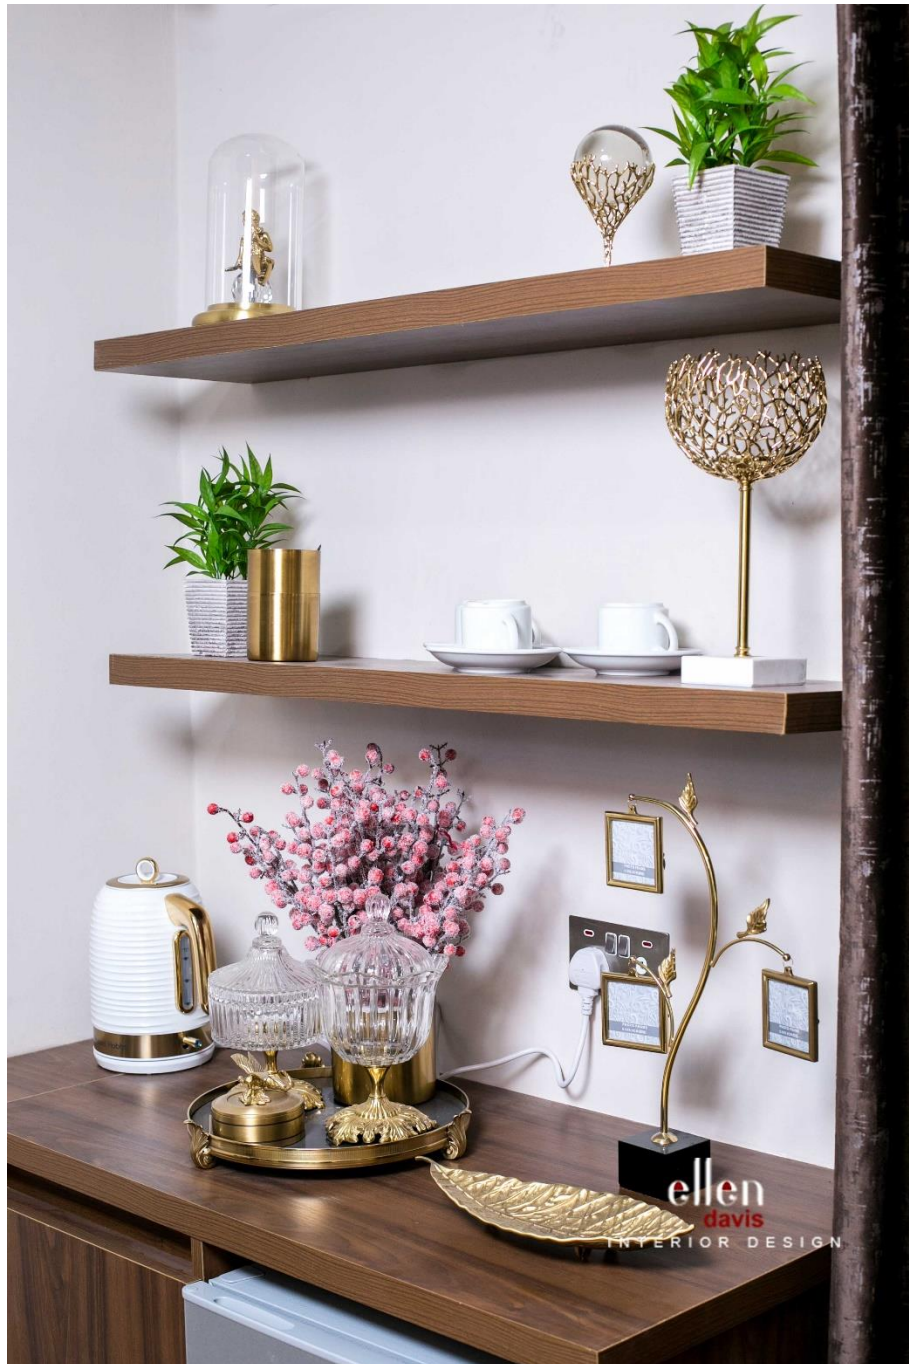

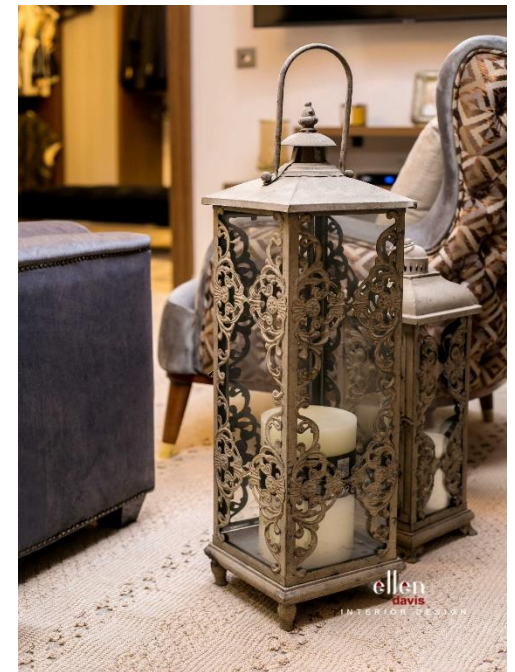

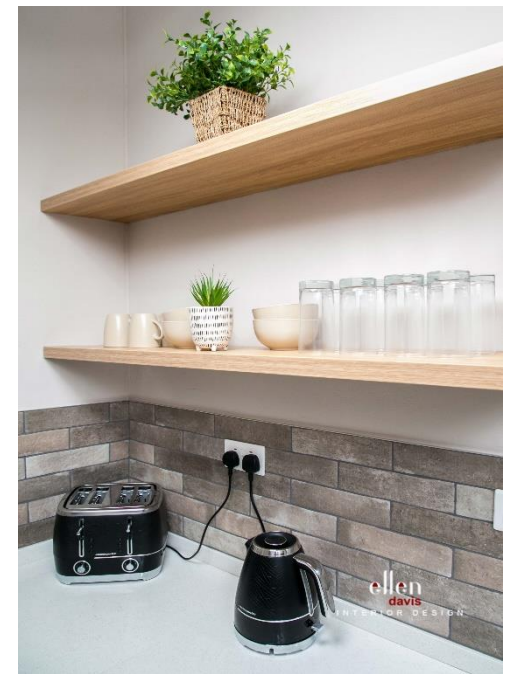

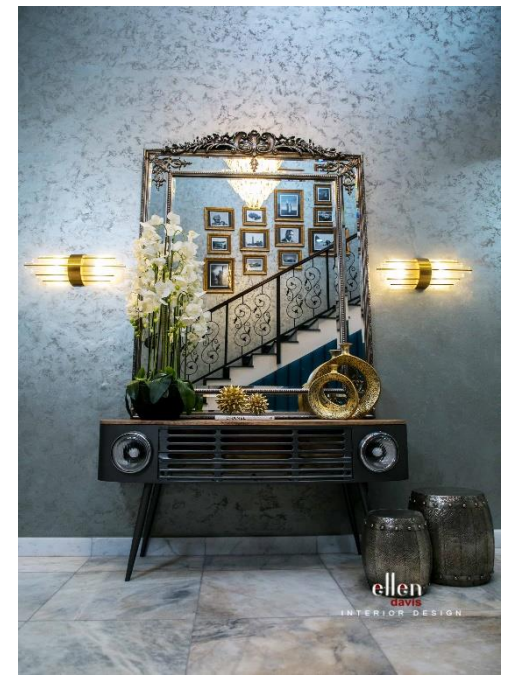

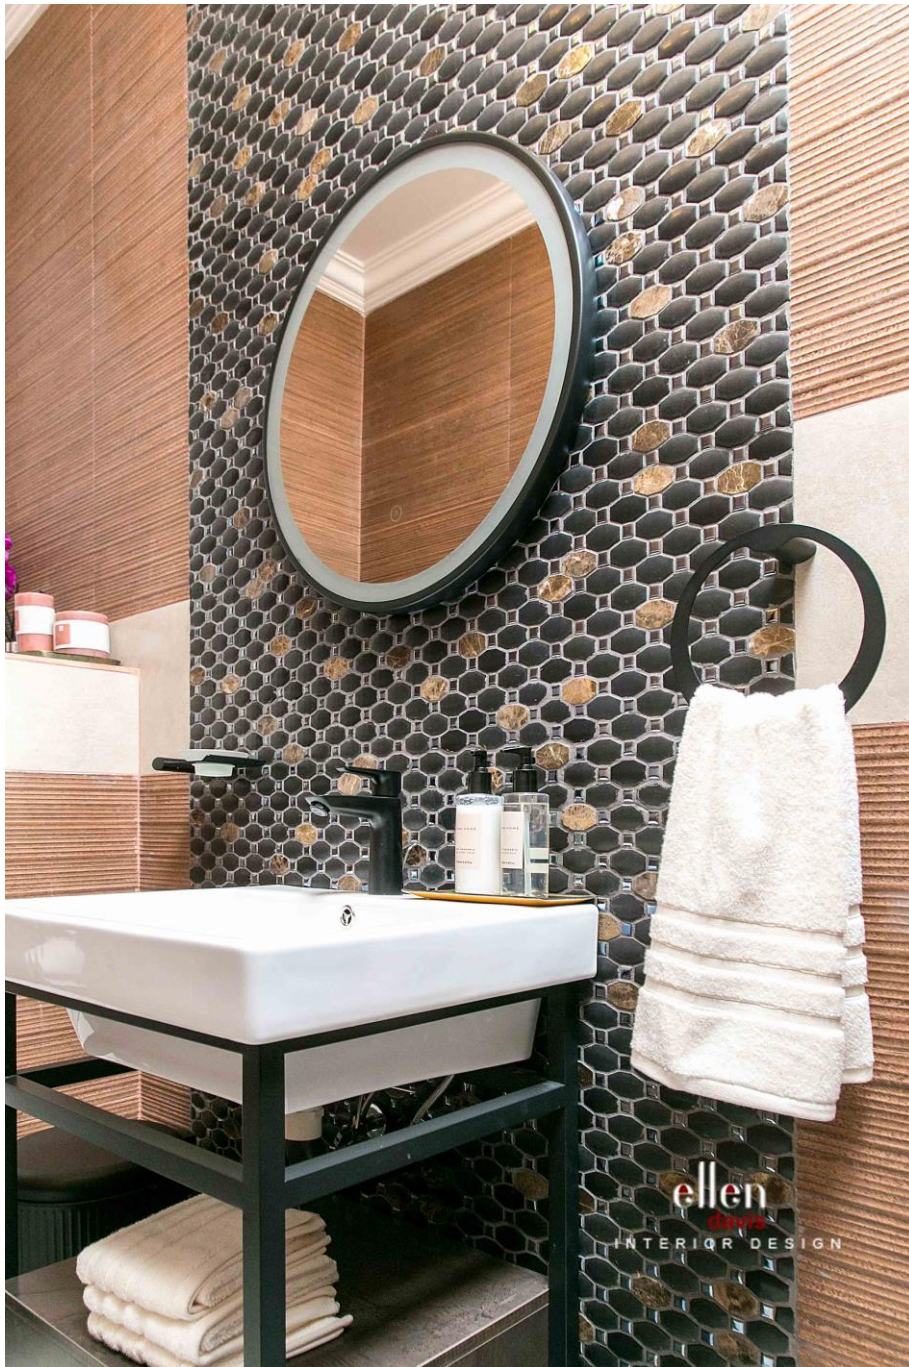

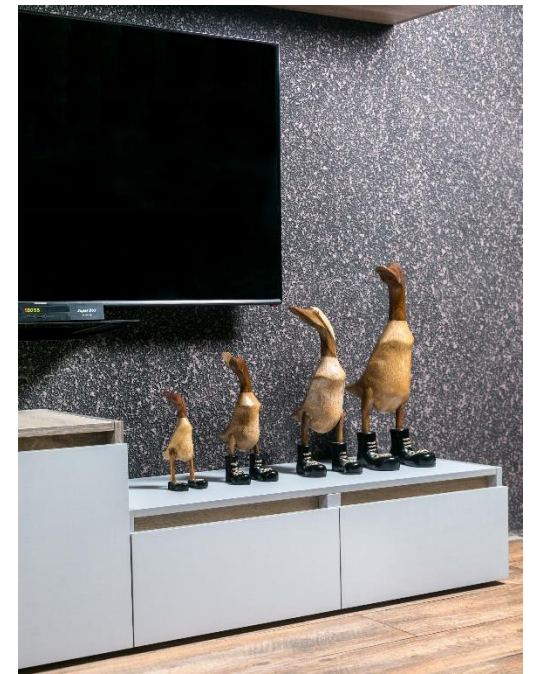

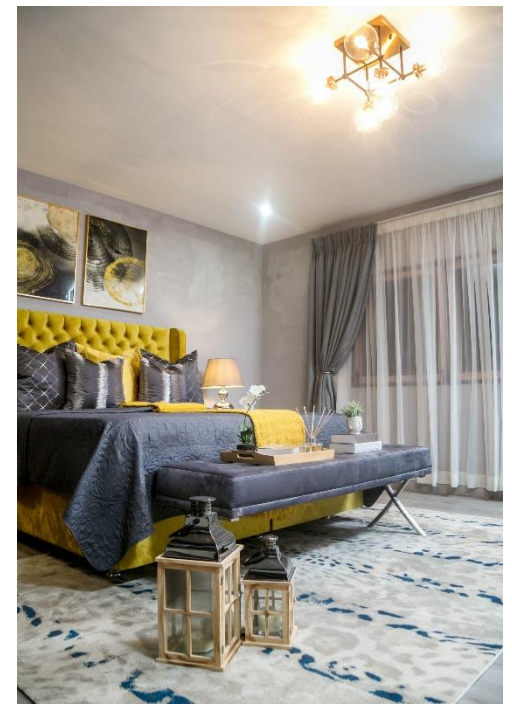

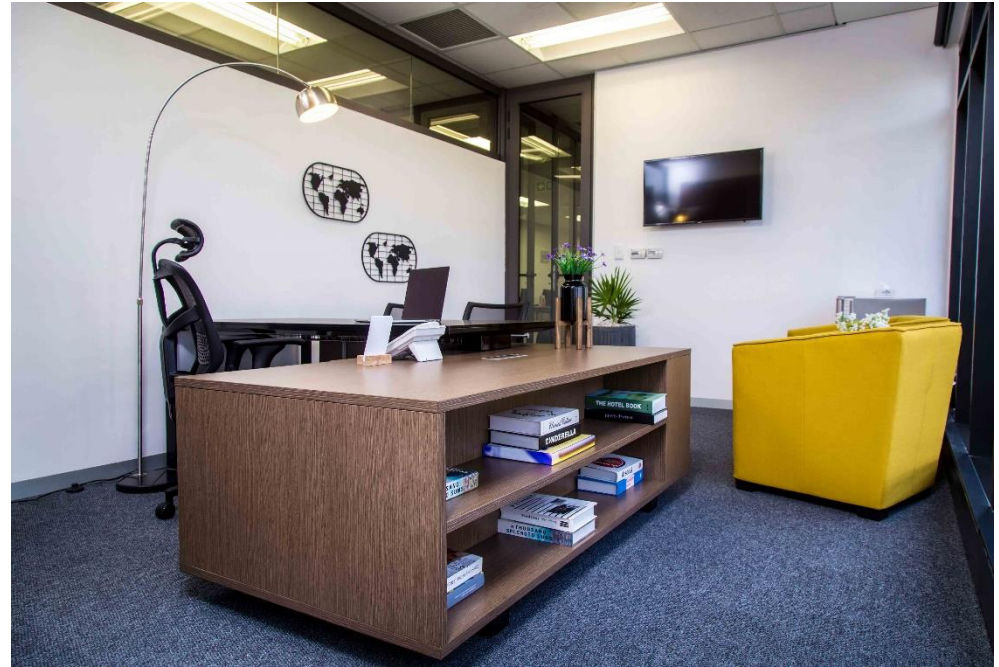

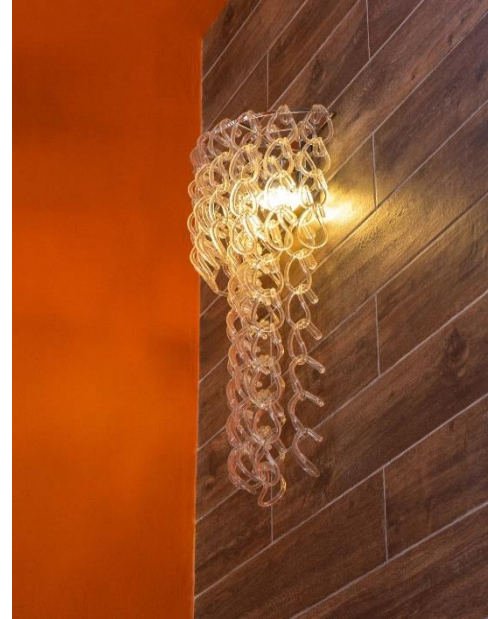

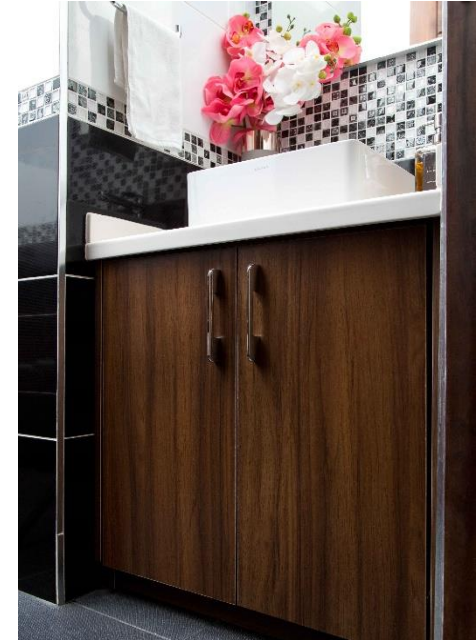

"Let there be light and there was light" without lights your home looks bare like a woman with no jewelry or accessories. Define every space in your home with handpicked spot lights, chandeliers and corner lights for every space. These lights are sourced from all over the continent but mostly from the UK.

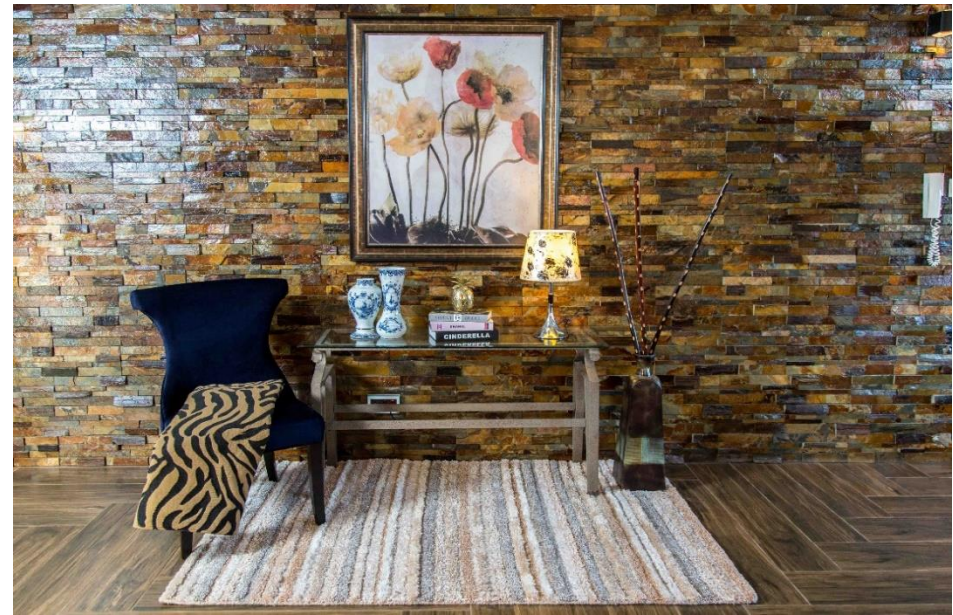

An exclusive powder room is what gets your guest thinking. Do you know most people judge your sense of style when they use your powder room? Black and white goodness is the mood for this powder room. Black and white mosaic tiles as the border and a built in flash system that makes this powder room so contemporary.

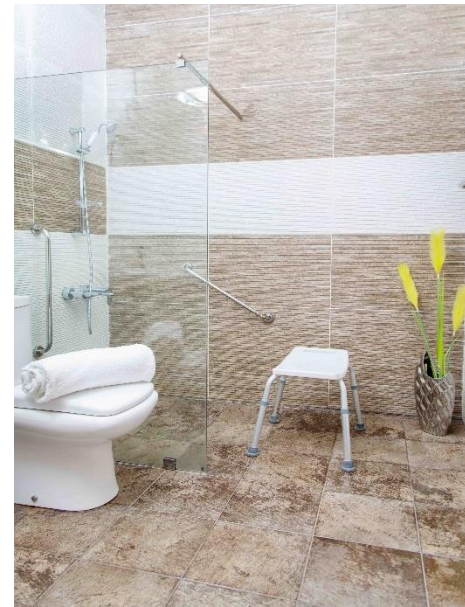

Great entry goals; be Bold, be Daring and break out of the Ordinary. Bespoke brown leather furniture from London, white stone cladding for the focal wall and gray tiles for the flooring.

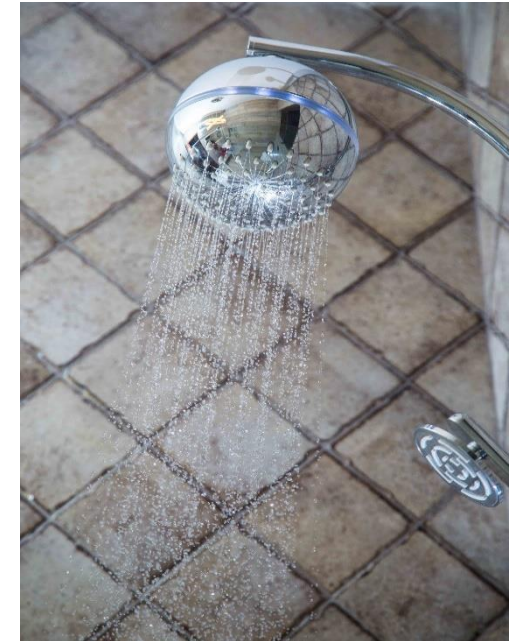

The foyer or entry area of every home is what welcomes your guest. It also gives your guest some anxiety to want to see more of what the rest of your home has to offer. The wall is covered in real imported stones glazed in lacquer. A wall hanging/ console table and some accessories has this area well styled and eases stress as soon as you walk in. The rug is a smaller dimension of the dining area rug (in beige, grey and ivory tones)

A bathroom solution for your home; brown and white Monte-Carlo Spanish tiles. We love wet floors and glass panel. Our shower accessories come from our Jaquar range of accessories (India).

Bathrooms are an essential part of your home that helps you destress. They are also therapeutic. To give your bathroom character, that shower area can be well defined with different tiles from the rest as well as the flooring. We love wet floors with glass panels. Our accessories and varieties are well handpicked to suite every bathroom in your home.

DINING AREA

...it's all in the details

If you love rich tones, then this dining area is just perfect for you. The rich dark blue velvet chairs with the docket at the back is what makes this dining area distinct. The dining table, display cabinet and buffet sideboard set is what sets this area apart from the rest. We love open concepts and pop of colour. Our imported rugs from Holland is what makes it even more cozier.

KITCHEN

...it's all in the details

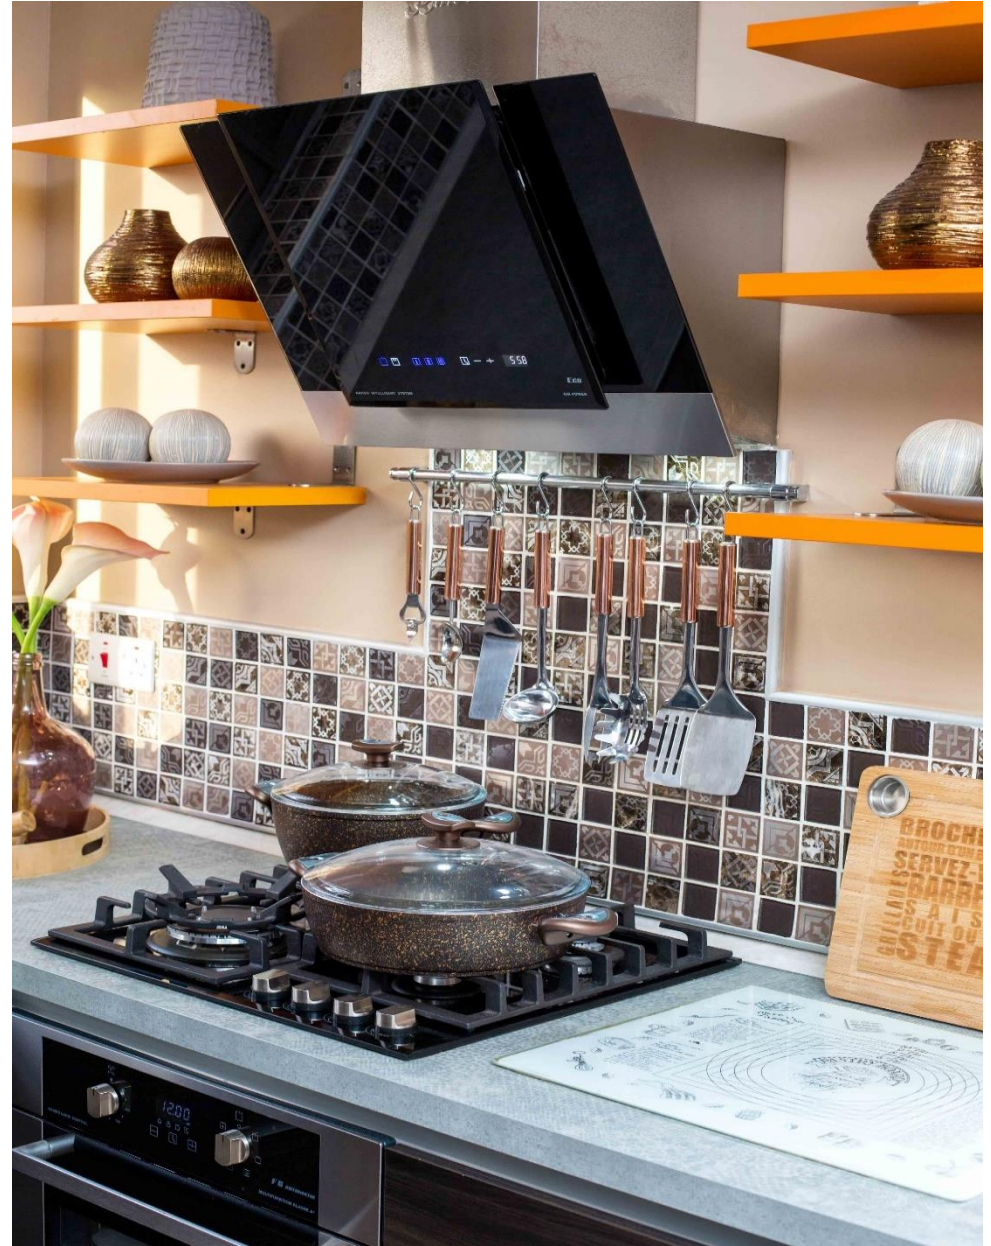

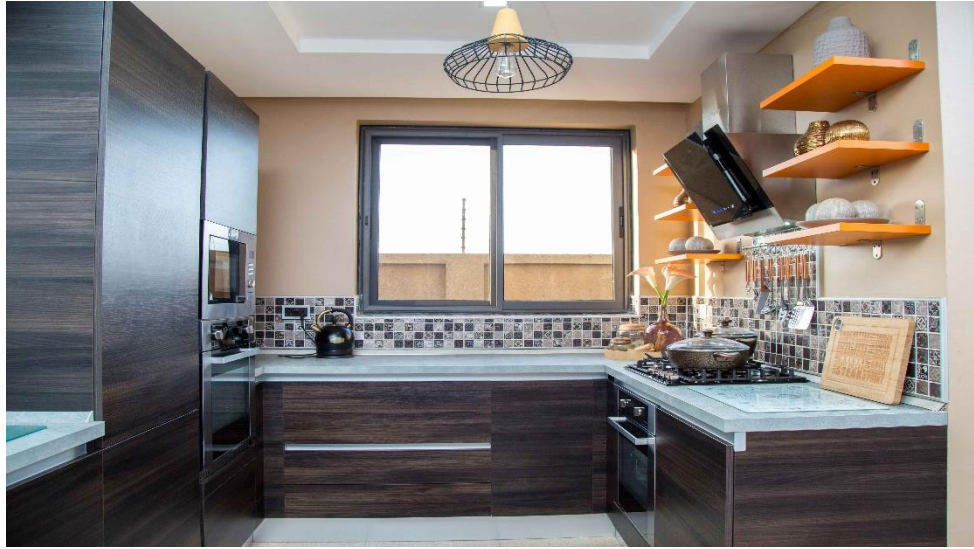

An Italian kitchen; cabinet has cement façade (popular in Europe for about a year now) with Siemens built in appliances. The countertop is white granite that compliment the light wooden tiles flooring. This kitchen is very classy and on the high end.

KITCHEN

...it's all in the details

A modern contemporary kitchen (open concept) is all you need. It reflects your style and personality. Giving your kitchen a pantone that gives it a distinctive character. Cabinetry and appliances are all German made. Dark Aulmo brown with grey countertops with striking orange and glossy accents. Mosaic back splash, all together gives it an incredible finish.

THANK YOU
